EQUAL MEASURES 2030

If historic trends continue, the world won't achieve gender equality until 2108. How is Mongolia performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

If current trends continue, a girl born this year will

be in her sixties

before all women in Mongolia say they feel safe walking alone at night
