Europe and North America

If historic trends continue, the world won't achieve gender equality until 2108. How is Slovakia performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

If current trends continue, a girl born this year will

be in her thirties

before all women in Slovakia have access to family planning
