EQUAL MEASURES 2030

If historic trends continue, the world won't achieve gender equality until 2108. How is Sri Lanka performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

If current trends continue, a girl born this year will

not in her lifetime

see that all women in Sri Lanka say they feel safe walking alone at night

Best and worst performing indicators since 2015

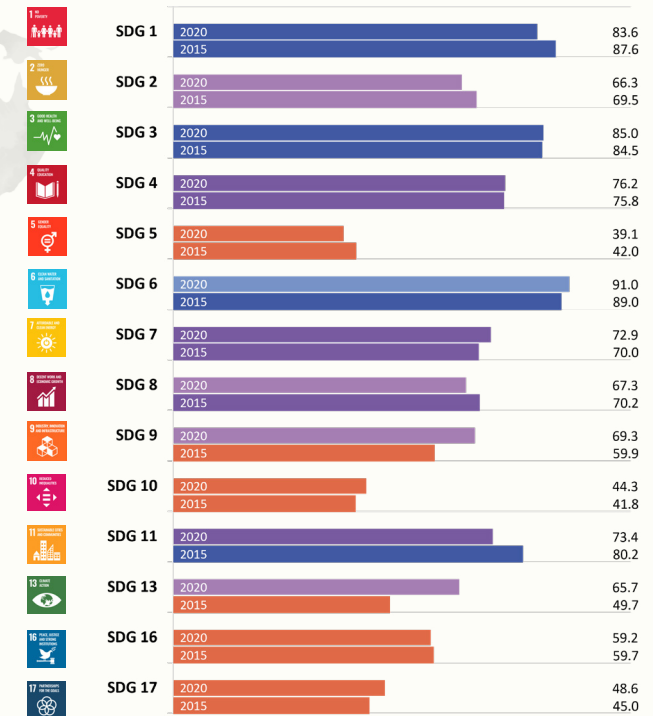

Best

- Extent to which the delegation representing the country at the COP meeting is gender balanced
- Proportion of women who have made or received digital payments in the past year
- Proportion of key ratified human rights instruments regarding migration

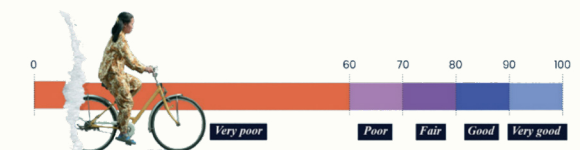

Worst

- Proportion of women (15+ years) who report they did not have enough money to provide adequate shelter or housing in the past 12 months
- Proportion of women (15+ years) who report feeling comfortable with their household income
- Proportion of women (15+ years) who report they are satisfied with efforts to preserve the environment

Score by goal for 2015 and 2020

Scoring system

- Fast progress:** Increase by >3 points
- Some progress:** Increased by <3 points and >1 point
- No progress:** Less than +1 or -1 change in points
- Decline or Wrong direction:** Decline by more than -1 point
